# 1. About product

Welcome and thank you for choosing Sieraków Śląski Pipe Organ Samples!

Sieraków Śląski Pipe Organ Samples (SSPOS) is a free Hauptwerk™ sample library of Rieger's pipe organ from 1903 chromatically sampled in 96 kHz, 16 bit-format and 2-channel stereo sound.

## 1.1. Features

- 6 stops romantic virtual pipe organ for Hauptwerk™ 4
- chromatic samples, 96 kHz, 16 bit-format and 2-channel stereo sound
- multiple loops samples
- full original manual and pedal compass
- stop panel optimized for 4:3 screen
- tracker noise and engine special sounds

## 1.2. Contents

There are one way to obtain Sieraków Śląski Pipe Organ Samples – as digital download product. Please check if you have the following elements before installing the product:

- Installation package containing Organ Definition (ODF) and Data
- User's Manual (this document as .pdf file)

## 1.3. Stoplister

Pedal	Manual	Couplers
Subbas 16'	Principal 8'	I/P
	Gambe 8'	I Super
	Flöte 8'	
	Octawe 4'	
	Salicet 4'	

## 1.4. System requirements

Sieraków Śląski Pipe Organ Samples needs Hauptwerk™ by Milan Digital Audio as a host software, available for Windows and Mac (32/64-bit) in various Editions.

Please refer to Milan Digital Audio website (<https://www.hauptwerk.com>) for more informations about Hauptwerk™.

## 1.5. Memory usage

Hauptwerk™ uses all free computer RAM to load whole sample set. If you do not have enough memory to load the whole organ, just try to disable some voices or decrease the quality of loaded samples by changing their bits or use single loops. We recommend to use this virtual pipe organ in maximum possible settings. The table below shows you the computer RAM usage for organ loading in various options.

### Computer RAM usage for Sieraków Śląski Pipe Organ Samples

Stops	Bits	Loops	Acoustics	RAM usage
All	16	All	Original	0,9 GB
All	16	Single	Original	0,7 GB

## 2. Installation

### 2.1. Installation of the complete organ

Installing the Sieraków Pipe Organ Samples requires Hauptwerk™ version 4.2 or later; Free, Basic or Advanced Edition.

1. Launch Hauptwerk™ virtual pipe organ software.
2. Go to “File” → “Install organ or temperament...” and select location of downloaded package. Hauptwerk™ will automatically install your sample set. We recommend to install first the organ installation data, then the organ definition file, if they comes separately.
3. Carefully read the terms of use, then click “Agree”. Installing and using this sample set means acceptance of those rules.
4. Now the sample set is ready to use. Go to “Organ” → “Load organ” and select installed sample set.

### 2.2. Upgrading and updating

Before running Sieraków Śląski Pipe Organ samples, please check if you have the latest version of the product. All updates can be freely downloaded without logging to our website. The number of your product version can be found in the User’s Manual delivered to you along with the sample set.

The upgrade packages are delivered as a standalone updates. The procedure for installing upgrades and updates is the same as the normal installation process which was described in the previous chapter.

Remember that you can always download the entire product from your dashboard and update it on your computer regardless of which version you have. The latest version of the product is marked as “LATEST”.

## 3. Virtual pipe organ controls

### 3.1. Pages

In Hauptwerk™ software the controls of all virtual pipe organs are organized in separated pages. All pages have unique characteristics and allows you to control various functions. The virtual organ pages are described in table below.

Page number	Page name	Description
1	Keyboards	This page shows you the virtual organ console. Here you can see the organ keyboard and the pedalboard.
2	Stops	This page is intended for single screen use. Here you can see all stops and other features of the virtual pipe organ.
3	About	This page shows you a short information about this virtual pipe organ.

## 4. Terms of use

YOU SHOULD CAREFULLY READ ALL OF THIS FOLLOWING TERMS BEFORE YOU START USING THIS PRODUCT. THE INSTALLATION OF THIS PRODUCT MEANS THE ACCEPTANCE OF THE LICENSE AGREEMENT.

### 4.1. License agreement (EULA)

1) This document defines the licensing agreement between the copyright holders and the user of the sample set Sieraków Śląski Pipe Organ Samples. The sample set consists of the samples and images, ODFs and other system files.

§2) The copyright holders grant the customer the perpetual right to use the sample set with Hauptwerk™, the Virtual Pipe Organ software of Milan Digital Audio. The copyright holders retain all rights, including all copyright and intellectual property rights, to the sample set and all copies thereof.

§3) The customer can make a backup copy of the distribution media as needed. However, the customer must not distribute copies of the sample set or parts thereof, either as-is or derived, to third parties. This includes distribution of any privately made Organ Definition Files or Custom Organ Definition Module files referencing any part of the work. You may use the full organ in a public installation but using parts of the work in a custom-made organ for a public installation is not allowed unless you have a separate signed license for this, which is negotiated on a case by case basis.

§4) The customer may resell the paid sample set. In this case the customer must sign a written statement that the distribution media and all copies have been handed over to the new owner and that any remaining files associated with the sample set have been deleted. This statement, along with the name and address of the new owner, must then be sent to the copyright holders. Please notify us if you intend to transfer your license to new client and Vox Organum will verify the current situation, provide further details and prepare the statement form.

§5) The sample set comes without any warranty. The copyright holders cannot assume any liability for the use of the sample set. The customer must take the usual precautions when using the sample set, such as setting speakers to a low volume during the first tests. The audio signal reaching the speakers is determined by several factors, e.g. volume settings on the PC, settings on the sound producing software, the sample set itself and the input signal (e.g. midi-file).

§6) The customer may use this sample set in a public performance, so long as the sample set attribution is publicly stated. For example, having the following statement printed on a program: *"The organ samples used for this performance are from the Sieraków Śląski Pipe*

*Organ Samples from Vox Organum*". Please contact us if you want to use this product in public or buy the Institutional Use License if it is required.

## 4.2. Trademarks

The Vox Organum logo is an official trademark of our company. The Hauptwerk™ logo is registered and belongs to Milan Digital Audio. The organ manufacturers logos were used in promotional purposes of the virtual pipe organs and they not hurt in the good name of the companies.

## 5. Technical Support

The Technical Support contains the full documentation about products and our website. We offer you stable on-line help. Using the Technical Support section, you can easily create a help request. Our assistants will respond you as soon as possible. The waiting time usually runs from one to three business days.

---

**Note:** The unsupported products and illegally acquired software will not be examined by our team. The request will be automatically closed.
